

# TRAINING ANNOUNCEMENT

## High Rise Rescue Drill

### COURSE DESCRIPTION

The drill will simulate a response to a high rise fire with people trapped on a 5<sup>th</sup> floor balcony. This will require suppression tactics implementing one engine being supplied from a hydrant and connecting to the FDC; a second engine connecting to a more remote hydrant and providing water supply for the ladder truck; utilization of high rise packs and standpipes inside the building; and placement of a 100' platform for rescue, and suppression if needed.

### TARGET GROUP

Enchanted Circle Fire Departments that may have high rise buildings in their districts or that may provide mutual aid to departments with high rise buildings in their districts.

### PREREQUISITES

None

### DATE

Saturday, August 22, 2009

### TIMES

1300 hours - 1700 hours

### LOCATION

Edelweiss Lodge and Spa  
106 Sutton Place  
Taos Ski Valley, NM
